## Essex County Herald.

Car fender patents have of late been issued from the Washington Patent Office at the rate of seven a week.

The General Assembly of the Northern Presbyterian Church has resolved that it has and will have control of the theological seminaries, whether the trustees consent or not.

Anent the Allianca affair the Atlanta Constitution recalls the old Mora claim, on which the Spanish Government nine years ago promised to pay the claimant \$1,500,000, and has never yet paid a cent.

Our Chief Naval Constructor, Hichborn, says that twelve-inch guns are the largest necessary to get the best results. His conclusions are based on the experiments of foreign Powers, and the outcome of the Japanese war.

General Booth, of the Salvation Army, is planning to send such an industrial colony to Canada as will astonish the world. His scheme comprehends the transportation of 10,000 persons, and he is sanguine that these people will stay and prosper there.

With a population about half that of this country. France is getting along toward the billion dollar mark in annual expenses. The interest on the National debt is \$370,000,000, and the cost of the army and navy \$180,-000,000. The revenues this year are estimated at \$665,000,000, and a deficit of about \$10,000,000 is probable.

It is not generally known, declares the New York Sun, that "the territory proposed to be annexed to this city slightly exceeds in area the present annexed district. The new area measures 13,000 acres, which is nearly equal to the area of Manhattan Island. The entire area of the city is now about 41; square miles. With the new annexation it will be a little short of sixty-four square miles. New York even then will be one of the smallest in area of the large American cities."

The English ruling classes are showing a high degree of intelligence in the manner of their recruiting system, admits the Atlanta Constitution. They have got rid of the fundamental idea of an aristocracy of birth. They no longer insist that in order to be entitled to rule others the aristocrat must be able to trace his pedigree back to Odin and Thor. They are carefully constructing a new aristocracy on the fundamental principle that the strong are entitled to rule the weak. Whenever in the England of to day a strong man appears the ruling class at once attempts to conciliate him. He may be a successful brewer, or a great and powerful pawnbroker or an artist or a poet or an actor or a soldier. It makes no difference what he is or where he comes from. If he shows strength, if he demonstrates his abilty to thrust his way to the front in the struggle for existence, if he has shown the power to push the weak aside or even if he is merely excellent without being aggressive, he is watched in the hope that his strength can be added to that of the governing class.

If there was ever an historical event of peace that deserved commemoration by painting or statuary it was the laying of the Atlantic cable, maintains the New York Independent. In our own history the Declaration of Independence or the signing of the Emancipation Proclamation may be greater, but they were evemts of war as well as of peace. It is highly proper that the Chamber of Commerce of New York City should have honored the memory of Cyrus W. Field and the distinguished men who were associated with him-Peter Cooper, Moses Taylor, Marshall O. Roberts, Wilson G. Hunt, Samuel F. B. Morse, Chandler White and David Dudley Field, by the unveiling of a noble painting of the projectors of the Atlantic cable, by the venerable artist, Daniel Huntington. Mr. Field is represented as standing by a table in the presence of his seated associates, and explaining to them his project on a map. Mr. Depew delivered the address in honor of Mr. Field. Two brothers of Cyrus W. Field are now living, one Justice Field, of the United States Supreme Court, the other, Dr. Henry M. Field, of the Evangelist. Justice Brewer, of the Supreme Court, is his nephew.

The Italians buy about 4,000,000 bushels of wheat a year from Russia to manufacture into 90,000,000 pounds of macaroni, of which 18,000,000 pounds are exported to this country. It would seem to be an excellent idea to make the macaroni in this country, adds the American Farmer.

### AT PORT OF KIEL

The Combined Fleets of Many Nations Gathered.

To Participate in the Opening of the Baltic and North Sea Canal.

The twenty-fifth anniversary of Germany's great achievements of the France-Prussian war was ushered in by the dedication of a

prodigious work of peace.
The construction of the Baltie and North Sea Canal is finished and the keystone of this gigantic enterprise was laid with festive eremonies, after which the canal was formally opened for the nations of the earth. The whole affair was conducted by the indefatigable Kaiser. The celebration was continued three days and ended with a grand marine managure by the German Imperial Xavy in the Unit No. the East Sea.

Twenty-eight of the largest and best equipped of His Majesty's ships, amount them the Brandenburg, Kalser, Doutschland, Friedrich der Grosse and Preussen, were in Kiel harbor, the new Admiral, Herr Knorr, commanding, though His Majesty as chief of the marine forces. the marine forces is the Lord High Admiral per se. The Hehenzellern and the Brandenburg were his flagships. The United

Skrydlow: Sweden and Norway, five men-ofwar under the command of Contre Admiral von Klingenberg; Spain, three men-of-war Denmark, five men-of-war under the com-mand of Commodore Gad; Roumania, two men-of-war; Turkey, the cruiser covette Heibet-Numa, and Portugal and Greece sent one man-of-war each. The great American cruisers duplicated the triumphs of their recent stay at Southampton, when the whole town and numerous distinguished tizens of London did them honor.

citizens of London did them nonor.

The original program issued by the Emperor was for a grand parade on the Tempol-hofer field, near Berlin, of all the troops garrisoned in the capital, in Potsdam and in Charlottesburg; the German kings and princes, and the representatives of foreign potentates were to participate in the review, at which each prince and princess was to marshal his or her regiment. This would have been eminently satisfactory to William,

tion's guests. The Emperor paid for his glory out of his own pocket. The \$500,000 too red by a grand tail in which the emperor has and empress many royal princesses, the Ambias and princes and the expenses of opening the Suez Cana. The Kaiser, the German kings and princes and the representative of foreign to the sum to Hamburg as guests of the Free case in the total based or the representative of foreign to the sum to Hamburg as guests of the Free case in the total based of the canal in front of the shortened by 200 miles. It is estimated that the Holtenau end of the canal in front of the shortened by 200 miles. It is estimated that the supplies that marks the spot where in 1887, the late William I, broke ground for the canal will amount to from to twelve; [11] tons annually, as it is believed that most slip, will rather pay the possible scale. But the citizens who paid for it all were rigidly excluded, so far as neturic participation in the dining and winentertainment, which was on the grandest with a spade of gold. The Kaiser formally possible scale. But the citizens who paid for it all were rigidly excluded, so far as natural participation in the dining and winding and winding went. Only the senators were permitted to cut under the same roof with their majorates and construct the North-East sen canal, which is the longest that the North-East sen canal, which is the longest to construct the North-East sen canal, which is the longest that the longest that the longest that the longest land to the land to the longest land the longest land to the l miles out of their way. If we keep in mind the immense and universal advantages which would accrue from a canal through the Jurland peniusula, we can the better understand that its history dates 500 years back. Since the beginning of the sixteenth century, not ties and coyal highnesses, or sailf the air in the world, measuring 61½ miles, calculated the heard new island in the Aister basin, and new island in the Aister basin, and new island in the world, measuring 61½ miles, calculated the cost at 156,000,000 marks, and not only did he keep within the limit but saved 700,000 marks. On the 5th of June Herr shrubbery. It has coom for 1,000 persons. ss than sixteen projects were submitted to be respective governments. That the Germans, and especially the Em-

peror, took unusual pride in the work is natural. Europe abounds in canal projects to paper, which seem destined to remain in that condition for many years. France is forever shouting about her West-South Ca-nat that is to connect the Atlantic and the Mediterranean at Bordeaux and Narbonn respectively. Italy wants to connect Bon with the sen, and besides hopes some day t build a canal between the Adriatic and th Terranian, Russia intends to cut a canal between the Black Sea and the German East sea. But neither the French nor the Italian nor the Russian government has appropriate money nor executed any presiminary step that might lead one to think that it is in

No wonder that some of Germany's neighpors were jealous. The Chauvenists of
France especially endeavored to forestall the
recognition of the canal by the requilite,
making that the sending of the warskips to
mice part was equivalent to abandoniag Almes-Lorraine. When the government denied
into the Chauvenists tried to influence the
mar against the scheme, but Nicholas paid
no attention. Finally they reminded the
king of benmark of the fact that Kiel
was the capital of Danish terratory unnexed
in 1864 by the Franslans—a sore of
Northern Alshes-Lorraine. Failing to shake
King Christian in his determination to
maintain his peaceful and friendly policy
towards Germany the Paris Houlevard press
launched fortistic canard that the Kaiser No wonder that some of Germany's neighmethod forth the canard that the Kaise

BRIDGE OVER THE CANAL AT OBUTNEY THAT. ]

meant to visit the French warships and thus upon the territory of the French Re-

the first an official gazette made have to deny this statement, which seems to have had no foundation. It was probably based on the fact that the French Navai Department had ordered four German Imperial standards to aid to the equipment of the vessels going to Kiel. In volsequence of the row provoked Rochefort they were withdrawn and the French menod war carried only the regular Goronn flux, which does not contain the insignin of the Order of the Iron Cross with the year "1870" to which the Chausenists took

The Emperor ordered three great military cuests for instantaneous photographs. Then were but two dissappointing features in the Kiel celebration—Bismark could not come and Gladstone wouldn't. The Grand Old Man refused to forget that William, two years ago, called him an 'Trish Home-Tale humbing, in a letter to the Queen.

#### WHISKEY TRUST ILLEGAL. Misused and Abused Powers Granted

by Charter. A decision was handed down by the preme court at Springfield, Ill., in the Whis-key Trust case, in which the decision of the Cook county court, declaring the trust illegal is affirmed. It is one of the strongest ar-raignments of combinations for the purpose of concerning or controlling prices in pro-

duess ever promugated by any court.
The opinion is voluminous, containing 49 pages closly written type manuscript, and goes fully into the details of the case. Many citations are made, among them Chicago Ga-and the Match Trust, to which the court maintains the Whiskey Trust bears a similarity. This deduction is made from the fact that the Chicago Gas and Diamond Match companies exceeded their obarter rights by engaging in lines of business not granted in their charters. The Whiskey Trust, the court maintains, exceeded its charter by forming a combination to control prices rather than to manufacture whiskey.

The gist of the decision is contained in the following paragraph: In accommulating distillery properties in the manner and for the purposes shown, the defendant has not only misused and shased the property of the purpose. misused and abused the powers granted by its charters, but has usurped and exercised powers not conferred by, but which are wholly foreign to that instrument. It has thus rendered itself liable to prosecution by quo warranto, and we are of the opinior that upon the facts shown by the information the adgment of ouster is clearly warranted

#### BIG POLICE SHAKE-UP.

Wholesale Changes to be Made in the New York Force.

There is going to be a big police "shake up" in New York city within a very short time, which will carry out to a large extent one of the plans of reformation proposed by the police commissioners. The proposed changes will be made under the direction of Acting Chief Couling who will act under the Acting Chief Conlin, who will act under the direction of the board and be guided mainly by their counsel in his redistribution of the force. Every precinct and every man, from the captain to the doorman is to be affected. President R osevelt spoke freely about the matter: "In order to bring about a much matter: "In order to bring about a mugi-better condition of affairs than exists at pres-ent in the department," said he, "we deemed it necessary upon assuming office to entirely eliminate politics from the department After careful consideration of the matter and a survey of the present condition of the de-partment, we have decided that this climination is only to be accomplished by the whole sale and general transfer of all of the mem-bers of the force, from captains to doormen. The captains who have in the past been rel-egated to obscure precincts because they dic not possess the necessary "pull" will now have a chance to control more responsible

Melted the Hairpins.

During a thunderstorm at Kiowa, I. T. lightning struck Mr. Thompson's residence tearing out the end of the house and setting fire to it. But for the timely arrival o neighbors the occupants would have been cremated alive. Mrs. Thempson and Mis-Leilia Collins were fatally injured, the hair plus and corset stays of both women being melted, while their heads, their faces and the left side of their bodies were paralyzed an

These two were picked up by the Barracouta and taken to Manzanillo. hoped that the Colon would have picked up or heard of other survivors. Eighteen survivors so far have reached San Francisco. Several sailing vessels are due and may have ad-

#### GOOD TEMPLAR PROGRAM.

A Week of Public Meetings, Recep-

tions, Banquets and Excursions. For months the Reception Committee of the Mass. Grand Lodge of Good Templars have been actively at work making arrange-ments for the sessions of the Supreme Lodge to be held in Association hall, Y. M. C. A. Building, on Boy ston street, Boston, the last week in this month. The committee consists of twenty-two with Willard G. Wyli-G. C. T., chairman; William Leonard, vice-chairman; Sarah A. Leonard, G., sec-retary; and Chas. J. Abbott, treasure; Varioussub-committees have been appointed: Committee on Lodgings, Miguel Sereque, chairman; banquet, J. Sydney Hitchins, chairman; chu ch supply, Bev. James Yeames, chairman; decorations, Chas. L.

WILLARD O. WYLLE, G. C. T. Chairman of the reception committee.

Abbott, chairman, and music, Rev. James Yeames, chairman. Many meetings of the committee have been held and a program for the week outlined that will be greatly en-joyed by the thousands who attend. The de-tails of the program have been carefully at-tended to.

tended to.

Tuesday evening, June 25th, at 7:30 o'clock, the Grand Lodge of Massachusetts will tender a reception to the Supreme Lodge, in Association Hall. Rev Jas. Yeames, P.R.W. G.S. will preside, and addresses of welcome will be made by Mayor Curtis in behalf of the city, and Williard G. Wylle, G.C.T., in behalf of the Grood Templers of the state. Representatives from India, Africa, Norway, Sweden, Switzerland, New Zealand, British Columbia, Scotland, Germany, England, Prince Edward Island, Ireland, etc., will respond. Lodges throughout the state will respond. Lodges throughout the state will attend, their members clothed in the insignia of the order. The W.C.T.U., Massachusetts T. A. S., State Reform C. ub. Lemple of Honor, Sons of Temperance, Catholic T. A. S., and other temperance organizations of the state will have representations of the state will have representatives on the platform. This meeting is open to the public, and an original ode, written by Rev. James Yeames, especially for the

We messlay, the 26th the Supreme Lodge vill commence its sessions, Dr. D. H. Mann R. W. G. T., preaching and continue eight days, open only to members of the order, In the evening a public event will take place. the Graduating Exercises in the Course of Study, preceded by a banquet. Hon, S. B. Chase, Chancellor of the Course, Hallstead, Pu., will preside at the graduating exercises.

Thurs lay afternoon a convention photograph will be taken from the step of the Institute of Technology. At six o'clock, Gov. Greenhalps will tender the Supreme Lodge a reception in Copely Hall at 6.30 o'clock a grand banquet will take place in Copely Hall. One thousand plates will be laid and Wm. Leonard of Salem, Mass., A. G. C. T. of Mass., will be toastmaster. The in-vit d guests will be Governor Greenbalge, vit d guests will be Governor Greenhalge,
Ex Governor John B. Smith, of New Hampshire, Gen. Neat Dow, Hon, Nelson Dingley,
Jr., Hon. John I. Baker, Mayor of Beverly;
Mayor Curtis, the Supreme Lodge, its past
presiding officers, and tepresentatives of
State temperance organizations. The banquet will be public.
On Saturday the Scandinavian good templace of Mass, will tender a banquet in Com-

plars of Mass, will tender a banquet in Com-mercial Hall, to the Scandinavian delegates from Sweden, Norway, Schleswig-Holstein, Minnesota, Illinois and New York, Sunday afternoon a public meeting will be held in Berkeley Temple where the Scandinavian delegates and other representatives will

The committee on Church Supply will supply many pulpits on June 30, with represent-atives to the Supreme Lodge. In addition to the social pleasures outlined, a Harbor ex-cursion will be taken by courtesy of the city of Boston, upon the steamer J. Putnam Bradies, when the forts and other of interest will be visited. Suburban trips are being will be visited. Suburban trips are heing planned to Cambridge. Charlestown, Salem, Concord and Plymouth. The various sub-committees are actively at

work; and have all the work of enter-taining the Supreme Lodge well in hand. All delegates will be met at the depot and es-corted to their lodgings and provided with a badge and a guide to the city. The United States Hotel will be the headquarters of the

Against Rockefeller.

The federal jury in the \$1,250,000 damage suit of Alfred Merritt vs. J. D. Rockefeller of Duluth, Minn., has returned a verdict of \$940,000 for the plaintiff. Suit was based on the ground that Rockefeller, both by his personal presentations and through the fraudulent representations of his agent, Rev. F. T. Gates, a former Baptist preacher, and C. W. Wetmore, a New York capitalist and lawyer, induced the plaintiff, together with his brothers, to place in a consolidation of iron minins companies their properties on the Mesaba range. The jury decided that the evidence showed that the representations were false and made with intent to defraud the Merritts. Suits aggregating \$2,000,000 more will be brought on the same basis.

Bridge Jumper 19.

Bridge Jumper No. 19, of New York city, his mind filled with thoughts of a recent strike and dreading the future, put in an ap pearance not with the idea of gaining glory and a handsome salary from the proprietor of a dime maseum, but with a view to letting death end his troubles. He didn't succeed but is allve and unburt. The would-be suicide is David Cohen, who three years ago, at the age of 20, came to this country from Hun-gary and started in at 115 Ludlow street to make a living as a tailer. Since the strike a few months ago he had been out of work and despondent. He pawned his watch and ring for a trifle over #3 just before starting for the

AN ELECTRICAL ALLIANCE. Goulds and Westinghouse Against Vanderbilts and General Electric.

An alliance has been consummated between the Gould and the Westinghouse in electrical affairs, as against the Vanderbilts and the Edison General Electric Company. The contract for the electrical equipment of the Manhattan elevated railway of New York has been awarded to the Westinghouse Electric Company of Pittsburg. The contract covers between six and eight millions of dollars. This fact has been officially announced here by F. K. Hain, vice-president and general manager of the Manhattan road.
